

Office swivel chairs
Swivel executive chairs

24 h

24 h. Lives up to its name.

On duty from one morning to the next, with no signs of fatigue. That's the 24 h chair. If the person sitting on the chair has a quiet moment he can assume a relaxing reclined or even sleeping position.

Anyone would be pleased to have some support for their back. The 24 h chair offers this support in any situation, even when things start to heat up. Everything is in the right place, all functions are ideally matched. Take a closer look – and you know you can trust it.

Some chairs have a hard life. They are in constant use wherever people are on call around the clock – e.g. the police force, fire brigade, in hospitals, call centres. In short: in shift work where the chair is in constant use. Every detail of the 24 h chair has been designed with this in mind. A chair to live in.

You can see at first glance: it's tough enough for many years of service. With a reinforced base and mechanism. But it's worth taking a second look: at the clever and versatile functions such as armrests in two different designs, for example that can be folded back. Or the cushions that be exchanged separately in the wink of an eye.

The 24 h chair is not just upholstered. It's reinforced. The upholstery surround with its integral foam housing at the same time serves to protect the edges. The upholstery fabric is unbelievably hard-wearing, but also breathable to ensure an optimum micro-climate. You can chose between two fabrics or perforated leather.

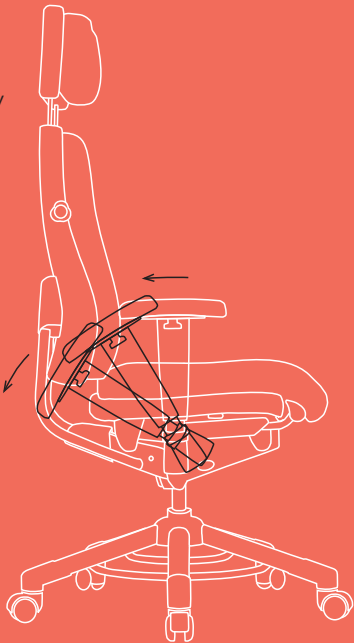

For taller users: thigh relief through active seat depth adjustment (Aktiv Mechanism).

The individually adjustable lumbar support relieves the body of a lot of the muscle work needed to stop the pelvis from tilting backwards.

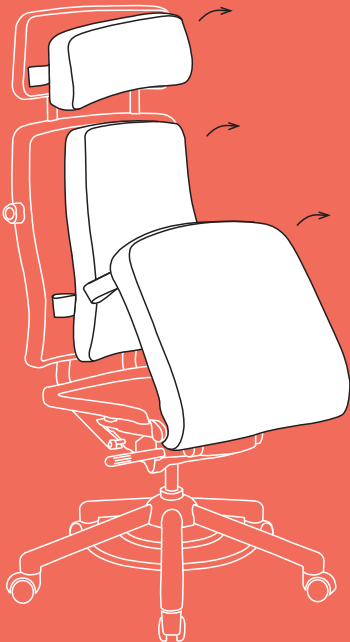

The height, depth and width of the armrests can be adjusted synchronously. Soft armpads with width-adjustable pads, pivoted and locking.

They can also be folded back on request. So they won't catch on holsters when immediate action is needed.

The 24 h chair is simple, logical and can be operated whilst seated: Just as easy: changing the cushions. These can be ordered separately and exchanged in a jiffy. Thus ensuring that the 24 h chair is always on call.

The 24 h chair program has the same warranty as chairs with an average of 8 hours use despite the longer hours.

Environmentally friendly production and ecological perfect products are a trademark of Interstuhl and also took top priority when developing the 24 h chair. The Environmental Management System at Interstuhl meets the requirements of DIN EN ISO 14001; our Total Quality Management has been certified in accordance with DIN EN ISO 9001 since 1993.

All 24 h chair models come with an Interstuhl long-term warranty of five and a full warranty of three years.

Y158
Backrest height 55 cm

- Black steel base
- Synchronous mechanism
- Weight regulation
- Mechanical sprung column
- Seat depth adjustment
- Hard double castors

- Optional:
- Adjustable lumbar support
 - Armrests with synchronous height, depth and width adjustment, pivoted, can also be folded back
 - Soft double castors
 - Exchangeable cushions for seat YS01
 - Exchangeable cushions for backrest YR01
 - Exchangeable cushions for headrest YK01

Y368
Backrest height 75 cm with neckrest

- Black steel base
- Synchronous mechanism
- Weight regulation
- Mechanical sprung column
- Seat depth adjustment
- Hard double castors

- Optional:
- Adjustable lumbar support
 - Armrests with synchronous height, depth and width adjustment, pivoted, can also be folded back
 - Soft double castors
 - Clothes hanger
 - Exchangeable cushions for seat YS01
 - Exchangeable cushions for backrest YR01
 - Exchangeable cushions for headrest YK01
