

Goal

Whoever understands more about seating creates the perfect place for anyone.

Second and third generation managing directors: Helmut, Werner and Joachim Link (left to right)

Interstuhl

The idea of a Swabian businessman and developer is embarking on an international journey. It's all about attractive and healthy seating, whether we use it to work, think, discuss, argue or relax.

It's all about a chair that actively supports us at what we are doing.

Interstuhl innovations are conceived, tested and developed in an interesting mix of think-tank and expert laboratory. That is what makes us so unique. Simply stated by Werner Link, the company's owner and Managing Director: "We understand more about sitting". An honest statement that has its origins back in 1961 when the assignment was to create relaxing seating for the workers of a textile factory. The focus ever since has been on expertise and

a genuine interest in our products and the people who use them. We remain true to the spirit of our brand by collaborating with leading institutes on the scientific development of our products. This has resulted in a collection that is unparalleled in its breadth and depth. He who understands more about sitting, has studied it in detail. Interstuhl is such a company and will remain so: a world away from corporate affiliations and concerns about globalization. Over 600 employees craft exclusive German goods and they do so in Germany.

Anyone who understands more about sitting should rise up. Rise above the tired old clichés about quality and materials. Interstuhl is what it is, and what it is is very good.

Daily relaxation, individual design possibilities

nice price

Goal is a top-quality all-inclusive solution for everyday ergonomic relaxation. This classic chair lets you unwind at work and makes it easier to handle everyday tasks successfully and with greater appreciation. Our everyday life is made up of the things that surround us all day long and changes do not simply occur – they are a result of how we handle things. Goal puts you in a position to turn expertise into success. Its variations are as diverse as the persons using them; Goal emphasises the language of the individual corporate identity in various ways, yet always in a pleasant manner. Each position has its own story.

Whoever does fair work deserves fair relaxation: if you wish, we can put you in the right position, 360 days a year. Goal is an office chair that wants to please all people.

And it can, too. Goal gives its best, for all those who give their best and have many other financial plans in mind.

Cantilever model chrome,
armrests

Easily adjusted to your weight, large weight range of 45 Kg – 130 Kg

Strikingly beautiful shape and lines of the backrest

Base designs in black plastic, black aluminium, brilliant silver, polished

The next position is the best

From the seating specialists

Fact: from an anatomical point of view ergonomics means movement because movement is a critical part of office health. It is a law of nature that effective work processes are one of the most important sources of value-added in the company. Back problems are the greatest causes of absenteeism. A good chair will not heal your back but it is good prevention.

tive medicine and eases the pain for those who already suffer. What does an Interstuhl chair do? The patient therapist offers support in each posture. It generates a feeling of well-being in all positions and brings measurable relief.

Naturally, the courage to follow our philosophy of dynamic sitting has meant a break with all the old rules: majestic, immaculate and bolt upright vs. the new

philosophy of doing it with gusto, reclining, lounging, looking out the window, concentrating.

"You can sit however you want. Just sit on the right chair." Each new product development with leading research institutes confirms this and it is substantiated by scientific input. The result: Interstuhl chairs accommodate every posture so ergonomically that maximum support is ensured.

1 Synchronous mechanism

The synchronous movement of the seat and backrest provides optimum support for the back in every position; the push effect is eliminated.

2 Permanent contact backrest

The moveable backrest allows and encourages changing postures by supporting the body in every position.

3 Sprung column

This ensures that the spine, which is very sensitive to vertical jolts, is not subjected to excessive loads when sitting down, even at the lowest seat height.

4 Base seat height adjustment

The seat height is a precondition for good sitting. The base seat height adjustment extends the DIN-defined adjustment range and allows ideal sitting for short or tall users.

5 Weight adjustment

The individually adjustable counter-pressure of the backrest permits correct sitting for both light and heavy users.

6 Backrest height adjustment

The support range for the lumbar spine can be ideally adjusted to the height of the user.

7 Seat depth adjustment

Regulates the distance between the backrest and front edge of the seat, thus providing optimum support for the upper thighs; even for taller users.

8 Seat inclination adjustment

Multiple adjustment of the seat in a forwards direction stops the pelvis from tilting back. This relieves the spine and avoids a poor posture.

9 Adjustable lumbar support

The horizontally adjustable lumbar support adapts to the individual curve of the lumbar spine; this reduces the muscle strain.

10 Adjustable 4D armrests

Height adjustment to take the strain off the neck muscles. Width adjustment and pivoting for optimum support angle, depth adjustment for optimum distance to the desk.

11 Head and neckrests

The neck and shoulder muscles are relieved by the headrest when you lean back.

Premium products

Often the word innovation is more of an obstacle than a useful coordinate – all too often inflated claims and abuse of the term for purely promotional reasons obscure the distinction between real innovation and the purely derivative. This is why we are particularly pleased that customers can now not only experience the quality of our products, they can see it too: we are the first manufacturer to be granted the right to label our products with the official "Premium Product" seal, awarded by the LGA testing company and TÜV Rheinland Group certification body. In addition, we have won yet another accolade: the best "Quality Office". Put simply, every Interstuhl product provides a premium sitting environment and all owners of Interstuhl chairs can rest assured that they have chosen the best possible product. This has a positive impact on the person as a whole and their entire working day. Knowing this, we are more than happy to issue a 5-year guarantee. We share the praise for our innovative seating solutions with the research institutes that are always ready to support our developments and think we'll keep doing things this way.

Quality Office

Awarded by the Verband Büro-, Sitz- und Objektmöbel e.V., the German Standards Institute (DIN), the Verwaltungs- und Berufsgenossenschaft, INQA Büro, Initiative neue Qualität der Büroarbeit, and the Federal Institute for Occupational Safety and Health.

Goal sprung from the Industrieformen studio of Hans-Georg Piorek. "Never believe that something is good enough." This is the idea behind the products of the designers Piorek, this idea is the link between accepting the proven and attempting as yet untried aspects. Goal is the successful realisation of a series-compatible, simple, pleasant yet striking office chair that couldn't be made in a higher quality. The modern, sturdy mesh design is a new feature for 2007. Product-Design: Hans-Georg Piorek © interstuhl.
